

Franklin County

2017 Child Care Supply Demand County Profile

Extent Desired Capacity Meets Potential Demand

40%

In many Kansas communities, families searching for child care find that the number of available openings for their young children can be few and far between. When a parent has a choice to select a quality program that is best for their children, everyone in the community benefits.

Child Care Aware® of Kansas collects self-reported data on families, children, and child care providers. While the licensing data provided is comprehensive, it cannot be considered complete. There is likely a delay leading to some closed facilities being included and some newly opened facilities being excluded.

Kansas' most trusted child care resource.
